

Significant Event Notice

This notice is to provide an update on our total Investment fee changes resulting from our latest review of our investment options' strategic asset allocations and underlying investment manager fees.

As you are likely to be aware, REI Super actively manages each investment option's asset mix to maximise the Fund's access to opportunities while minimising risks for our members. We do this within agreed strategic asset allocation ranges for each of our investment options.

In line with the review of our strategic asset allocations and underlying investment manager fees, our total investment management fees for both Super and Pension products are expected to change on or after 1 November 2017, as outlined below.
